

Configuration overview for compact cylinder
 ADN-16-20-I-P-A-Q-33K8
 #536218

Basic features	
Feature	Value
Function	ADN Compact cylinder, double acting, based on ISO 21287
Piston diameter mm	16 mm
Stroke mm	20 mm
Piston rod thread	I Internal thread
Cushioning	P Flexible cushioning rings / pads on both sides
Position sensing	A For proximity sensor

Other product options	
Feature	Value
Protection against rotation	Q Square piston rod
Piston rod type	Single-ended piston rod
K2 - Piston rod thread extension	Without
K5 - Special thread	Standard piston rod thread
K8 - Piston rod extended	33 mm
Temperature resistance	Standard
Constant speed	Without
Low friction	Standard
Improved running performance	Without
Corrosion protection	Standard
Increased lateral force	Without
Captive rating plate	Rating plate, glued
Low temperature	Without
Wiper	Standard
EU certification (ATEX)	Without
